

D.A.V. PUBLIC SCHOOL, PUSHPANJALI ENCLAVE, DELHI
CIRCULAR

No: 45

Dated: 16.9.17.

Dear Parent,

As you are aware it is the season of viral, dengue fever. Kindly do not send your ward to school if he/she is suffering from any such ailment which unables him to attend school. In this regard, please make note of the following points:-

- The child should not attend school if he/she is suffering from fever, cough and cold, vomiting sensation, weakness, loose motions, abdominal pain etc.
- Desist from sending your ward to school, even if the symptoms of the above mentioned ailments are visible as symptoms aggravate very fast and harm the child.
- The child should resume school only when he/she is completely fit to attend school. Also kindly send a 'fitness certificate' to the class teacher.

AN EARNEST REQUEST-Do not send your ward 'empty stomach' to school. The 'need of the hour' is to send the child to school with 'wholesome breakfast' at home. If the child fails to do so, it will result in weakness and lethargy, and the child will not be able to concentrate in the class.

- In case of chronic illness as asthma, diabetes and so on kindly send a photocopy of the prescription, so that necessary care can be taken accordingly. Kindly submit duly signed 'health record proforma' given on page 4 of the school almanac.

Let's join hands to have a healthy and prosperous future for our dear children.
