## Shaping future....

"Let us perfect the means, the end will take care of itself. For the world can be good & pure, if our lives are good & pure."

– Swami Vivekananda

Education means to equip a learner with love for learning, desire to excel, dedication, discipline ability to work tirelessly to achieve their focused ambition. It refers to the evolution of an aware, honest, skillful, committed, empowered human being with our cultural values & ethos ingrained in him, from an ignorant unskilled child. Every child has to be inspired & motivated to realize his goals as per his potential.

In DAV Pushpanjali Kindergarten at Tarun Enclave we can proudly boast of an optimum blend of modernity and our Indian values & ethos.

We focus on the three elements of development, mind, body & spirit. The updated technology, equipments, latest methodology of teaching are the perfect means to create a world of knowledge par excellence.

We envision to enable the young children into a holistic personality, who can think creatively, communicate effectively and hold sound principles of conduct and action, who can cater to social needs and aspirations of future India and the globe as a whole. In this endeavour the principles of DAV ideology help us in achieving our aim in an easy and comfortable manner. The values inculcated help a child in balancing the adverse with the good and the good with the excellent.

## Editorial

I feel immense pleasure handing over this first issue of FOOT PRINTS to you. Its aim is to disseminate information on how the young nascent minds are nurtured to blossom into responsible pupils who are future ready.

At DAV Pushpanjali Kindergarten Wing we are striving hard to cultivate knowledge, creativity, adroitness and happiness among our little learners, through coherent stir, love, care and adulation. The 3-6 year olds are like tiny flowers who will bloom if handled with love, care, praise & freedom and might wilt if not given opportunity to grow congenially or treated with austerity. Multidimensional activities taken up in school aim at multifaceted development of the tiny tots, so this issue of Pushpanjali times (FOOT PRINTS) is an effort to showcase the accomplishments of DAV Pushpanjali - Tarun Enclave teeny-weenies. It is a platform to put the spot light on day to day activities that the children indulge in during school hours.

To facilitate learning new innovative methods of teaching are adopted by the school. Children learn to express themselves in various forms and through different activities.

Children learn language skills and show their talent in recitation, story telling, oration, dramatization, and role plays. Aesthetic development & creative skills are taken care of by various art & craft activities, planting saplings etc. Different festivals are celebrated with a zeal irrespective of religion or cast.

This edition of FOOT PRINTS is an effort to acknowledge the efforts of teachers under the able guidance of the principal, and our mentors.

It kindles the zeal in our kids to perform, the zeal to do, the zest to learn and tread the path of success.

Readers get to know how the energies in the little ones are harnessed and channelized to facilitate learning & overall growth of a child. As you read through this edition you are mystified to learn how the school curriculum helps inculcate the right values and morals in accordance with attainment of academic excellence. This issue is a canvas which is painted with the spectrum of colours of attainments of our tiny tots. This issue is an endeavour to showcase the potential of little ones, the confidence in our tiny tots & our belief in them.

May the tiny little buds in our garden blossom into responsible, committed, confident, socially acceptable human beings who yearn to touch the sky.

## We Aspire....

If a child is given love,  
he becomes loving.

If he is helped when he needs help  
he becomes helping.

If he has been truly valued...

He grows up secure enough to look beyond himself to the welfare of others.

Education in its true sense means not only academic growth of a child but preparing a child for the future challenges of life.

He should be equipped with skills required for leading a purposeful life for himself as well as for society.

A child should not only be knowledgeable but should have the caliber to apply his knowledge in real life situations. In our Kindergarten school we prepare a child to face challenges in the formal education system & challenges of life at large.

We encourage and motivate our children to be confident, physically strong, emotionally stable and be equipped with socially desirable qualities so that they prove to be assets to the nation.

The latest teaching methods like use of Digital Interactive Smart Boards, activity based teaching, use of D.A.V. kits, access to internet, teaching software etc. help the children to learn to take success in their stride. Learning is no more a burden, but is fun for the students. They learn through playway method. They have an innate tendency to play. For their sound physical development, we have updated equipments & swings as per the requirement of this age.

If we adults as parents or teachers create an atmosphere of fear & anxiety, we can not expect the child to be happy.

We at DAV Pushpanjali believe in motivating, inspiring the young minds to broaden their horizons by providing them with ample opportunities with praise, tender love and care.

Children are given a chance to explore, express themselves, make choices, introspect, analyse, reflect their talent & creativity by virtue of which they fly & soar high, up in the sky...

## CBSE-i Stepping into the Future...

DAV Pushpanjali has a new feather in its cap - Affiliation to an internationally benchmarked global curriculum CBSE-International in class I, II, III now being taken forward to Class IV and V, as well.

CBSE-i aims to equip learners to face challenges of future. The steadfast activities planned in this curriculum enable the students to explore, investigate, think, experiment and acquire learning. For a balanced growth of the learners LIFE SKILLS & SEWA are incorporated in this curriculum which ensure strengthening of character.

This curriculum enthralls yearning for multidimensional development and self learning among the young learners.

Apart from activities catering to the establishment of concepts various activities are organised for building of a strong character and sensitization for the poor and needy, for the mother earth & our community helpers.

How amazing it is to see the teeny weenies exploring, experimenting and fiddling with mouse only to make the learning experiences more workable, fulfilled and fruitful. The Inclusion of LIFE SKILLS, SEWA, helps to enhance human excellence through training character as well as intellect among the young nascent minds.

# Independence Day 15th August, 1947

A day of national importance. A day that dawned to decide the fate of Indians. The day on which we achieved the much awaited & aspired for "freedom" from the British rule in the year 1947, is now a day to remember the sacrifices made by our freedom fighters, to pay homage to the martyrs and to show our love for our nation.

Patriotic fervour, in our tiny tots was expressed in the spectacular show put up by them at the Independence day celebration held in the school.

The twinkle in the eyes of children, the enthusiasm in their presentations and the confidence & reverence expressed their love for the country. The celebration began with flag hoisting by the Principal Ma'm Rashmi Raj Biswal followed by the National Anthem.

A glittering, peppy, performance by the tiny tots was enchanting.

"Role play of Freedom Fighters" in apt dresses,

"Dance performance" on patriotic numbers in bright, colourful dresses "speeches" by children showed their love for the nation & respect for the national leaders.

## Children's Day

....a special day for children was celebrated on 14th November.

Different races - banana race, pom-pom race, balloon race were organised for the kids along with other fun games.

## Silver Spirit of DAV

The DAV institutions are a gift of Arya Samaj, a movement founded by Swami Dayanand Saraswati, Arya Samaj - the flag bearer of the crusade against superstitions, and dispelling, illiteracy & ignorance.

Today DAV institutes infuse vedic culture in co-ordination with modern teaching using latest technologies and methodologies to bring about a balanced multifaceted development of the future citizens of India.

To impart knowledge of famous personalities of DAV a "Collage Making" activity for class Pre-primary was held in school.

Elocution on famous personalities of DAV was held for class I students.

## Meri Maa.....

The mother means the world to the teeny weenies of this age. To express their love for their beloved mother, the children of Pre-Primary made "Thank You" cards for them on Mother's Day.

Kids of Class I prepared & decorated photoframes with their mother's photograph in it.

## World Health Day

"A healthy mind dwells in a healthy body". For an all round development of the body of the children, it is of utmost importance to develop healthy eating habits among the children. They should learn to appreciate healthy food and incorporate good foods like fruits, salads and green vegetables in their daily diet. Apart from this children need to avoid binging on the junk food. A "Salad Making" activity was held on the world health day in the Kindergarten wing of the school. The tiny tots exhibited their zeal and talent of a "little chef". They prepared salads and decorated the plates to make them presentable. It was amazing to see the little hands do it. The beautifully decorated salad plates were a treat to the eyes and were mouth watering as well.

## Aarohan 2013 (19th Dec. 2013)

Annual Day was celebrated with great grandeur and exuberance as the Valedictory function of the Silver Jubilee celebrations of the school. The tiny tots of the Kindergarten Wing had presented a distinguished performance on the legendary character 'Abhimanyu'. The captivating music and fascinating performance by the tiny tots carried the day.

The audience was mesmerized to see the little performers of class Pre-school dancing gorgeously to the music of song "Chanda Maama".

A splendid western dance was presented by girls with much enthusiasm and prudence. Their gleaming dresses, their confidence, the glitter in their eyes, their energy & exquisiteness had a spellbinding impact on the spectators.

The integrity in the presentation was a direct result of the untiring & diligent efforts of the teachers and our tiny tots.

## The incredible achievements

The Wondergirl Saanvi of class I Roses is a sweet little girl who has participated in both activities intra and interschool and has "carried the day". Be it fancy dress in Bal Bharti School or in DLDVA Pitampura, she has won and brought laurels to the school, right from the class Pre-school. She has shown performances 'par excellence'.

## Gandhi Jayanti

Collage making using pictures of Bapuji - the father of the nation was held in the school to mark the day, by class Pre-primary.

## A Tip on Parenting

Every day in the life of parents dawns with a new challenge. As parents and teachers it's time for us to learn, not teach!

A child comes across so many experiences and people everyday. Catchy TV shows, friends, games, and so many other things. He will go the way which attracts him most.

Often parents complain that the children keep watching TV for most of the time and don't listen to them.

Dear parents, The TV shows are very attractive and enjoyable! To distract them away from TV, you have to give them something more appealing. You have to engage them in activities which they enjoy. Some constructive activities be it puzzles, be it craft work or may be playing some outdoor game with them.

Just make yourself truly attractive!!

## Say No to Crackers

Diwali - A major festival of Hindus is celebrated in the school with this message : Say No To Crackers...

It is celebrated in the school in its real sense with sweets, decorations and prayers. The kids develop the habit of discarding crackers from the Diwali Celebrations, when they write slogans in Anti-Cracker Campaign (rally) and make posters on "Say no to crackers". They decorate their classes with colourful "Rangoli", wish HAPPY DIWALI to all and distribute sweets.

## Teacher's Day Celebration

Kindergarten school is the very first step of a tiny tot on the journey of his education. When a young child of 4+ takes his first little step out from the cocoon of his home, away from his mother, it is the KG teacher who showers all her love and care on the little ones in her class.

It is the support and love of a teacher that makes this transition from home to school smooth & comfortable for the innocent little kids. A teacher in KG school not only takes care of the mental & physical development but also takes care of the emotional needs of children.

Teacher's Day in K.G. school is a day on which children show their reciprocation. They express their gratitude for the untiring efforts made by the teachers. Children present speeches rhymes, songs etc. to thank their teachers.

## Republic Day Celebration

The kids of our school had yet another opportunity to express their love and respect for the nation. A splendid performance full of energy and enthusiasm was presented by the teeny weenies of Pre school clad in colourful vibrant dresses. Kids of Pre-primary dressed as soldiers to show their patriotic fervour.

Some of them dressed as our national leaders and other known personalities who dedicated and sacrificed their lives for the nation.

Class-I children again presented a vibrant performance to peppy music.

## Earth Day

"Caring for our mother earth" has to be inculcated among the children at this nascent stage of development only this day intends to inspire awareness & appreciation for the earth's natural environment and the dire need to protect it. Activities focussing on environmental issues are held round the globe to raise awareness in protecting the globe.

The earth is in peril, we need to save it and our natural resources. 22nd April, 2013 was celebrated as 'Earth day' in the K.G. branch of the school, too, with a motto "Go Green".

Various activities were held in the school in order to promote the 3R's (Reduce, Reuse, Recycle). Emphasis was laid on issues like save water, save energy, save fuel. Activities like "collage making", "poster making", "slogan writing" & "plant a sapling" were held in the school. Children were inspired to observe Earth day everyday. Principal Ma'am also planted saplings in the school garden.

"HELP SAVE THE PLANET"

"LOVE THE EARTH, IT'S THE ONLY ONE WE'VE GOT"

"SAVE EVERY DROP, EVERY DROP COUNTS"

"DON'T BE MEAN. GO GREEN"

## A New Genesis

The prayer inscribed in our School Crest says :

Asto ma Sadgama  
 Tamaso ma Jyotirgama  
 Mrityorma Amritangama  
 (from the Upanishadas)  
 Lead me from life to truth  
 Lead me from darkness to light  
 Lead me from death to immortality

1st line explains : always We should remember to know ourselves. Our ultimate goal is to attain knowledge, to know reality in life.

2nd line explains : How to lead life towards knowledge from ignorance. We have to travel from darkness to life and from death to life. Just like the universe constantly keeps changing, we should too.

The school under the able guidance of our founder principal Ma'm Sneh Verma envisaged this motto of imparting knowledge. Seeds of DAV Pushpanjali were sowed way back, in the year 1989.

With untiring efforts, dedication & the vision of Ma'm Sneh Verma the little sapling DAV Pushpanjali proliferated into an enviable, promising institution that has always set higher standards for itself and reached them year after year. The building, the amenities, the competent staff every thing proves perfection personified. She is the epitome of success.

But as said earlier that change is inevitable.

Our school in the Silver Jubilee year has seen a major change of leadership. The torch of knowledge lit by Madam Sneh Verma has been handed over to another endowed, proficient visionary Ma'm Rashmi Raj Biswal - our new Principal.

Ma'm we welcome you and look forward to your direction to keep the torch of knowledge aflame.
